

STEELE SOLUTIONS, SPACE UTILIZATION EXPERTS.

www.steelesolutions.com
info@steelesolutions.com

Steele Solutions is North America's leading manufacturer of structural steel platforms, material handling chutes, and security lockers. We provide consultation, design engineering, fabrication, and delivery, but our services extend beyond these core capabilities.

Bring us your most complex problems, and we'll work with you to develop a **product solution** focused on improving **effectiveness** and **efficiency**, no matter the application.

With over **450 team members** and **800,000 square feet**, we support projects of all sizes.

We utilize **state of the art** design software, CNC beam lines, robotic welding cells, and multiple powder coat lines to ensure a **reliable** on time delivery.

We are the **safe, smart** and **integrated** choice.

Steele Solutions takes the time to understand the entire scope of the project by asking questions upfront, allowing them to create a design that fits seamlessly without interference to other structures, doors, windows and equipment.

- Scott Hennie, President – Elite Supply Chain Solutions

25+ YEARS OF INDUSTRY EXPERTISE

Companies work with Steele Solutions because they know they'll get a superior product and outstanding service from a company they can trust. From initial discussions all the way through installation, you can count on the professionals at Steele Solutions to walk you through every decision. We work tirelessly to understand each of our clients' needs so we can provide creative solutions.

With a team of **60+ engineers**, we pride ourselves on product solutions with ingenuity and custom capabilities.

Our **solution-focused designs** keep products and people moving, minimizing congestion and obstacles, and maximizing efficient flow from shelf to delivery truck.

Our products are **exclusively designed to streamline** product picking, packing, and sortation, helping our customers improve speed, efficiency, and accuracy.

100% of our steel products are **manufactured in the U.S.A.**

We deliver products **on budget** and **on time**, with a proprietary installation process that means you get the right parts at the right time.

Custom designed steel platforms and chutes are our business, and with that comes quality and integrity that goes into every project.

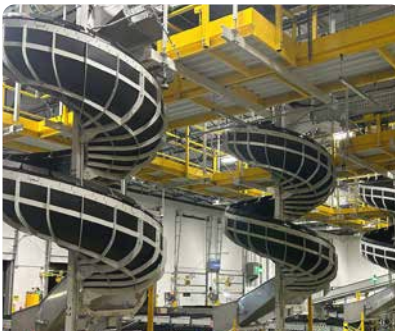

LEADING THE WAY

Every day, leading companies in the e-commerce, retail, distribution, and manufacturing space utilize our products to operate their facilities safely and efficiently. Whether your project is big or small, we will provide a solution that is safe, high-quality, and long lasting.

STRUCTURAL PLATFORMS

Platform consultation, design engineering, fabrication and delivery.

MATERIAL HANDLING CHUTES

The gold standard for custom material handling chutes worldwide.

SECURE STORAGE

A premier manufacturer of lockers for public safety professionals and military personnel.

Steele Solutions makes it easy to do business with them.

- President, Logistics Management

STRUCTURES

PLATFORMS

Steel work and equipment platforms provide substantial benefits at a fraction of the cost of what it might be to move operations into a new space. Our team of experts works side by side with you to design a solution that unlocks the full potential of your new or existing facility.

Advantages of work and equipment platforms include:

- Increased storage space
- Enhanced worker productivity
- Streamlined product flow
- Faster access to critical machinery and equipment

FRAMING & DECKING

Steele Solutions offers a variety of decking options for your work and equipment platforms. All of our decking materials have long-lasting strength, durability, and a professional look and feel.

The type of decking required may vary based on application and code requirements. Our team of trusted experts can help you choose the right solution for your needs, from ResinDek® and bar grating, to steel floor plating and 20-gauge type B roof decking—we can help.

CATWALKS

Catwalks offer safe and convenient access to conveyor systems and other critical mechanical equipment. We pride ourselves on delivering quality and reliable ceiling-hung, structure-supported, or floor-supported catwalk solutions made of durable, industry-grade steel with a professional powder-coated finish.

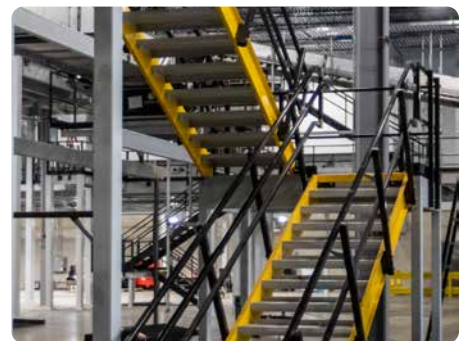

CROSSOVERS

Crossovers allow workers to safely and efficiently navigate an industrial facility, including traveling over conveyor systems and machinery. Steele Solutions offers a full selection of industrial-grade crossovers, from simple step overs to elevated crossovers with stairs.

STAIRS, GATES, AND LADDERS

Whether you are building a new facility or looking to enhance an existing one, we provide a full line of stairs, ladders, and gates to improve employee navigation with safe access up and down elevated platforms and surfaces.

Visit our [website](#) to see how our innovative product solutions can enhance your storage, productivity and streamline product flow.

CHUTES

UHMW POLYETHYLENE CHUTES

SST™ chutes are considered the Gold standard for UHMW chutes worldwide. UHMW-PE (ultra-high molecular weight polyethylene) is an extremely tough plastic with high abrasion and wear resistance.

At Steele Solutions, we manufacture chutes designed for durability, low friction, and chemical resistance. Our patented Slick Surface Technology enables packages to move faster and more efficiently. We offer 3D Simulation Software to model chutes prior to prototyping and run simulations to make necessary modifications to find the optimal package flow for your application.

STEEL CHUTES

Gravity steel chutes enhance operations by enabling more efficient movement of materials throughout a facility. Our expert engineering team, combined with our precise manufacturing, enables us to create a customized solution tailored exactly to your needs.

Our fully customizable chutes are available in galvanized or stainless steel and are used in distribution, sortation, and manufacturing facilities. Our versatile portfolio of capabilities includes straight, spiral, sorter, and transition chutes as well as chimney, snowplow, and butterfly chutes.

Need something custom? Don't sweat it. Our experienced team can design a unique solution based on your application and requirements.

SECURITY STORAGE

SECURITY LOCKERS

Secure storage is our specialty. When public safety professionals and military personnel are looking for the highest caliber of workmanship and security without compromise, they turn to Steele Solutions and our Tiffin security locker product line. Our cutting-edge manufacturing equipment, coupled with our innovation and reliability, has enabled us to fulfill the ever-changing demands of our customers.

- Evidence Lockers
- Airflow Wardrobe Lockers
- Infinity Wardrobe Lockers
- Duty Bag Lockers
- Sidearm Lockers
- Visitor Lockers
- Firearms & Armory
- Personnel Lockers
- Tactical Lockers

SMART EVIDENCE LOCKER

Chain of custody is critical in handling evidence and the outcome of criminal prosecutions. That's why we set out to create a locker that automatically tracks and stores this important data. Our solution combines the reliability of Tiffin Evidence Lockers with state-of-the-art Verapass® for evidence software.

Featuring an intuitive, user-friendly interface, biometric authentication, and wireless operation, these lockers enable a higher level of security and allow officers to spend more time in the field protecting and serving our communities.

OUR CAPABILITIES

When you partner with Steele Solutions, you receive the highest level of customer service and the confidence of working with the very best in the business. With millions invested in facility upgrades, new equipment, and robotics, we are positioned to provide your project efficient and expedient service.

OUR EQUIPMENT

- State-of-the-art powder coating equipment
- Voortman beam line systems allow for automated drilling and coping
- Robotic welders with in process setup capabilities to allow for continuous production
- Fiber lasers, folding machines, press breaks and more
- AWS D1.1 certified welders, CWB (Canada) Certified facilities and welders, City of Los Angeles approved fabricator

CUSTOMER SERVICE

We call this The Steele Solutions Experience, and it is the foundation of our success. We are the pioneer in exceptional care and putting the customer first. The team at Steele Solutions is focused on listening and responding in a timely manner to help make our customers/partners successful. We ensure the best steel structure solutions are designed and fabricated for the end-users' processes.

If problems or issues arise, Steele Solutions will fix them immediately and address the cost after the customer is satisfied.

- President, Inventory & Operations

We are a solution-focused company. Bring us your most complex problems, and we'll work with you to develop a product solution focused on improving effectiveness and efficiency, no matter the application.

Solutions is more than just part of our name. We can provide our customers with a solution that helps them achieve success. That is very rewarding. When you do that over and over again you truly do form partnerships.

- Kevin O'Neill, CEO
