## FOR IMMEDIATE RELEASE

### **Steele Solutions to Showcase Innovative Material Handling Solutions at ProMat 2025**

*Wisconsin manufacturer Steele Solutions to exhibit structural platforms, chutes, and SteeleTrax framing at premier supply chain trade show.*

**MILWAUKEE, WIS (March 3, 2025)** – [Steele Solutions Inc.](#), a North American leader in the design and manufacturing of complex work platforms, custom chutes, and security lockers, is set to exhibit at [ProMat 2025](#), the premier event for manufacturing and supply chain professionals. The event takes place March 17-20, 2025, at McCormick Place in Chicago, IL. Steele Solutions will showcase its cutting-edge solutions at Booth S4508 in the South Hall.

Attendees will experience Steele Solutions' industry-leading products firsthand, including the newly introduced SteeleTrax framing members, designed to optimize warehouse and distribution center efficiency. The exhibit will also feature a full-size put wall system and live demonstrations of the company's unique platform structures, which maximize vertical space while eliminating cross-bracing to enhance walk space and workflow.

"We are excited to return to ProMat and demonstrate how our solutions support the evolving needs of the material handling industry," said Andy Schumacher, CRO of Steele Solutions. "From optimizing warehouse space to improving installation efficiency, our engineering-driven approach ensures that every solution meets our customers' unique operational requirements."

#### **What to Expect at Steele Solution's ProMat 2025 booth:**

- **Elevated Structural Platform:** Walk under an [open-frame platform](#) that eliminates cross-bracing, maximizing workspace and storage.
- **SteeleTrax Framing Members:** See how [SteeleTrax](#) simplifies equipment suspension, reducing installation costs while improving integration with existing systems.
- **UHMW Chutes:** Explore how our [durable and fully customizable chutes](#) can seamlessly divert into steel or bag chutes for optimized package handling.
- **Put Wall System:** Get a hands-on look at a [fully functional put wall](#), designed to enhance order fulfillment efficiency in warehouse and distribution environments.

- **Slab Analysis:** Learn about Steele Solutions' latest engineering innovation, a [slab analysis service](#) that helps customers optimize foundation design and save money on construction costs.

Visitors are encouraged to stop by Booth S4508 to speak with Steele Solutions' engineering team, explore product demonstrations, and schedule a meeting to discuss their unique material handling challenges.
